

# artduo

**We believe art can inspire, engage and captivate people.  
It's why we do what we do.**

**Our passion** is fuelled by the extraordinary talent of Australian artists and we delight in infusing each project with it's own distinctive mark.

**Our belief** is that art can reflect and accentuate the interior design of any space. Art differentiates the space it inhabits - a home, an office or a hotel in a unique and enthralling way.

**Our knowledge** and extensive network of emerging and established contemporary artists and artisans enables us to create visually stimulating and engaging spaces.

**Our collaboration** with some of the most talented interior designers and architects has presented exceptional opportunities for creative expression.

**Our combined experience** of 25 years in gallery and project management in the corporate and creative arena, enables us to work on large-scale projects in Australia and Asia. We source and commission work across the entire spectrum of mediums; from original paintings, sculpture, photography, to works on paper and prints, providing creative solutions that reflect the clients' tastes and meet their needs and desires.

**Our services** are tailored to meet every aspect of the art procurement process, from the initial art selection, to framing, installation and professional management of the entire project.

**Our drive** is the delivery of exceptional service, to achieve the highest quality creative solution, on budget and on time.
